CHELSEA INDOOR/OUTDOOR RUG COLLECTION

The Chelsea Rug Collection offers an artistic, durable and environmentally friendly product that is ideal for residential, hospitality and corporate spaces. The Chelsea Rug Collection is made from polyester fibers, which are intricately cut and layered by hand, then interlocked by a patented needle punching technique. The fibers are hand punched with a needle, much like the ancient art of felting to create a design. For additional strength, the fibers are needled to a base fabric and then coated with natural latex. Using the latest nanotechnology, an EPA approved antimicrobial finish permanently embeds silver particles in the material. This process prevents deterioration, odor and the growth of mildew making the Chelsea Rug Collection extremely durable and ideal for both indoors and outdoors.

ECLIPSE INDOOR/OUTDOOR RUG COLLECTION

Our Eclipse Rug Collection reinvents the natural look of jute and sisal in an indoor/outdoor friendly, UV stabilized polypropylene yarn. These rugs utilize unique solution dyed, long-lasting fibers, which will resist signs of wear for increased durability. Eclipse rugs are free of toxic elements. Because color is fused during production of the fiber, it eliminates the traditional use of large quantities of water for dyeing, contributing to the preservation and the quality of our water. Eclipse rugs do not support growth of bacteria. The fibers do not absorb moisture, making spills and stains easily removable with normal cleaning agents.
