

JANUS et Cie®

## BEYOND TOPIARY

## An Ode to the Finest Cruising and Racing Yachts

It is the magic, calming spirit of the ocean that inspired the Hatch collection, the effortlessly elegant dining and lounge series by renowned designer Michael Vanderbyl. An avid yachtsman since the age of nine, Vanderbyl crafted the Hatch collection as an ode to the life aquatic, both its style and durability mirroring that of the finest cruising and racing yachts.

Hatch combines historic influences and marine craft technique with a distinctly modern approach to design. Pure lines and precise workmanship define this ensemble, while versatile modular pieces, occasional tables and serving carts make this collection just as well suited for a contemporary home in the city as it is for an elegant cottage in the Hamptons.

Twenty-two pieces in all, this comprehensive collection is crafted in premium teak and available in Atlas Silver and Polaris White, both enduring, architectural-grade JANUScoat finishes. [Click here to view the Hatch catalog.](#)
