

JANUS et Cie®

BEYOND TOPIARY

Stunning Textiles to Match Your Outdoor Spaces

Outdoor spaces are increasingly becoming extensions of the interior expansive dining and chic lounge environments outfitted with luxe fabrics and all the comforts of entertaining indoors.

With this principle in mind, exterior designer Scott Shrader creates stunning outdoor spaces, including this gorgeous property in Malibu, California, featured in Veranda magazine. Using JANUS et Cie collections (Arbor, Relais, Mood, Strada and countless textiles to name a few), Shrader crafted intimate and memorable exterior spaces, the ultimate lounges for hosting exquisite summer gatherings.

Elegant pillows and cushions create a cozy atmosphere and showcase our expansive range of fabrics inspired by nature. The decadent, velvety texture of Paradiso's opulent ikat pair perfectly with cushions upholstered in Heavy Canvas. Unique patterns like Brook Trout and Cross Current provide an organic flow and dimensional texture. The quietly sophisticated Annabel and Creel fabrics make comfortable toss pillows and create a stunning combination with Spinnaker's structural stripes.
