

JANUS et Cie®

BEYOND TOPIARY

The Timeless Art of JANUS et Cie Handcrafted Woven Furniture

Amari, Fibonacci, Katachi and Wing are among the many JANUS et Cie collections skillfully handwoven by artisans who possess the patience, dexterity and brilliance to follow the hundreds of strands and multiple patterns required to produce our stunning handwoven furnishings. As a result, each piece in a collection is a work of art, taking several days or even weeks to complete. The Wing collection, for example, is a Masterpiece representation of this centuries-old technique: the Wing Armchair takes 5 days for a master weaver to complete, while the 2 Seat and 3 Seat Sofas take respectively two weeks and four weeks.

Treasures of true craftsmanship, these meticulously woven collections are created using our innovative, proprietary JANUSfiber and are offered in an array of finishes. These stunning designs add refinement to any setting and are crafted to last for generations.
