## BEYOND TOPIARY

### Subtle Sophistication Meets Geometric Precision in Nodi

A quiet luxury exemplifies the Nodi collection, a brilliantly crafted seating collection with a distinctively weightless appearance. Designed by Yabu Pushelberg for Tribù, Nodi's sculptural, minimalistic frame is remarkable in its construction powder coated stainless steel that is endlessly durable despite its airy shape.

Nodi's innovative, modest frame is enveloped in twisted-interlaced Canax rope that forms an exquisite open crosshatch. Vertical ropes complete the seat back with precise lines reminiscent of a loom's warp threads, taut and mesmerizing. The unique Canax rope, comprised of PVC and natural hemp, is weather-resistant and flexible, yielding a comfortable, welcoming sit.

Offered in two contemporary finishes, Wenge and White, the Nodi collection is ideal for dining or lounging, and is at home in any environment, be it a seaside terrace or the kitchen of a mountain cabin. The Nodi Armchair is the 2018 winner of the Silver Award for Best of NeoCon in the Seating: Guest category and an honoree for the 2018 HiP Awards at NeoCon in the Outdoor category.
