BEYOND TOPIARY

A Charming Reef Knot Pattern Defines this Popular, Embracing Seating Collection

The disciplined detail of macramé technique is materialized in Knot, a beautiful seating and lounge collection comprised of intricately handwoven olefin rope supported by a durable yet lightweight aluminum frame. The collection's carefully woven seat back utilizes a modified reef knot to create an extraordinary pattern that provides a flexible, forgiving sit.

Originally launched last year, the ultra-popular Knot collection now welcomes an expanded lounge offering that includes a two-seat sofa and a three-seat sofa, both expertly handwoven using the macrame technique.

Delicate yet durable, Knot's stunning signature pattern is accentuated by soothing neutrals Fossil, a bone-white hue, and Shale, a deep shade of natural rock.
