

JANUS et Cie®

BEYOND TOPIARY

One, Two, See! A Flexible Furniture Collection Designed by Michael Vanderbyl

When designer Michael Vanderbyl created the SEE! collection, he looked to his California, seaside lifestyle for inspiration. The result: modular lounge seating in a multitude of configurations with simple, clean silhouettes that echo easy, breezy beach moments. The options continue: SEE! silhouettes can either be open or closed: the open styles reveal a cutout of the body, leaving only the lines of the stylish silhouette, while the closed version takes the same shape, but the body is entirely woven.

Contemporary in form and versatile in function, SEE! is crafted from the proprietary JANUSfiber, which is available in Bronze and Palladium.

As Vanderbyl says, SEE! is about composing the room that you envision. It opens up endless creative possibilities.
