

JANUS et Cie®

BEYOND TOPIARY

A Fine Teak Collection that Translates Old World Spirit into Modern Silhouettes

The Relais collection represents the charm and craft of quintessential, classic teak furnishings for the outdoors. JANUS et Cie designed the collection with the allure of Old World Europe in mind: a simpler time with simple joys, spent al fresco amidst rolling hills or along a moody coastline.

Slat-back dining chairs, elegant tapered legs, and traditional arm details are just a few of Relais's signature elements that combine to create a timeless look that is at home in both residential and commercial exteriors. Even with the traditional design elements, Relais is well-suited for modern living. Modular lounge seating allows for flexible use, creating seating areas large and small, and with round and corner options.

In Old World French, Relais translates to relaxation, fitting for the inviting collection filled with seating options and gathering tables in dining and bar heights. Made from the world's finest quality teak, the furniture remains as timeless as its looks.
