BEYOND TOPIARY

The Ria Armchair Embodies Flow, Flexibility, and Form

The Ria Stackable Armchair is characterized by a slim, open silhouette and curved, enveloping back which wraps seamlessly forward to support the arms. Like the narrow coves that gave Ria its name, its flowing form and clean lines are as poetic as they are practical. Offered in a cool, Norwegian-fiord-inspired palette of nine powder coat finishes, this light, stackable chair performs exceptionally well in high-traffic environments, allowing Ria to be uniquely suited for contemporary corporate campuses and universities, as well as your own backyard.
