BEYOND TOPIARY

The Conic Collection: Functional Seating Designed with Expert Attention to Detail

Introducing Conic, which includes an armchair, lounge chair and ottoman, each designed to elevate functional seating with subtle but distinctive details: handwoven seats and backs, slender frames, and minimalist silhouettes.

Expertly balancing high aesthetic with durability and practicality, Conic performs exceptionally in dynamic environments, indoors and out. Conic's frame finishes coordinate seamlessly with its contemporary counterparts in the Duo and Trig collections. The armchairs and lounge chairs are stackable to four, and the ottoman has been thoughtfully designed to slide beneath the lounge chair when not in use.

Conic's smart seating is ideal for small spaces, distanced dining and casual lounging.
