

JANUS et Cie®

BEYOND TOPIARY

The Alta Series Expands to Offer Extensive Variety for Senior Living Environments

With the addition of 26 new pieces ranging from scalable modules and durable benches to supportive ottomans and functional side tables, our Alta series now includes a comprehensive material and style offering of luxury furnishings for senior living applications.

Alta includes enduring handwoven JANUSfiber offerings from Amari, Arbor, Cortino, and Niche; all-weather aluminum pieces from Koko II and Matisse; and premium teak furnishings from the Relais collection, all engineered with subtle size iterations and skillfully modified to meet the dimensional requirements for aged care installations.

With a gently raised seat, slightly shorter seat depth, and increased overall height, Alta lounge and dining seating has been thoughtfully designed to provide comfort and ergonomic support with complementary side tables to complete the look.
