GABELLINI SHEPPARD

ELEGANT. PURE. PROGRESSIVE. INSPIRED BY LIGHT
AND SPACE. KEEN INVESTIGATORS. MASTERS OF
DETAIL. EXPANSIVE. CONSIDERATE MINIMALISTS.
INTELLECTUALLY RIGOROUS. RICHLY SUBTLE.
EXQUISITE COLLABORATORS. DISTINCTIVELY
ORIGINAL. SOPHISTICATED ARCHITECTURAL
COMPOSERS. GABELLINI SHEPPARD.

ABOUT GABELLINI SHEPPARD ASSOCIATES Renowned for creating architectural settings that are elemental in form and dramatic in their purity of means, the architectural partners Michael Gabellini and Kimberly Sheppard work at multiple scales from object to the urban plan, hotel to residence . Their New York-based multi-discipline firm, Gabellini Sheppard Associates LLP, designs private residences, fashion boutiques and contemporary art galleries, all of which create unique spatial portraits to reflect the specific lifestyles and programmatic needs of their clients. The firm's client list ranges from Jil Sander, Giorgio Armani, Salvatore Ferragamo, Vera Wang, Bergdorf Goodman, and Saks Fifth Avenue to the Solomon R. Guggenheim Museum, the Cooper-Hewitt National Design Museum, the Marian Goodman Gallery, and Grand Selwyn Fine Art. Gabellini Sheppard is also known for implementing sensitive and historically informed restorations on such architectural landmarks as the Top of the Rock at Rockefeller Center, the Fifth Avenue facades of Rockefeller Center, London's Royal Bank of Scotland building, and the former AT&T Building in Lower Manhattan. Michael Gabellini was a recipient of the 2006 National Design Award in Interior Design from the Smithsonian Cooper-Hewitt National Design Museum.

JIL SANDER SHOWROOM AND ATELIER,
MILAN, ITALY DESIGNED
BY KIMBERLY SHEPPARD AND
MICHAEL GABELLINI

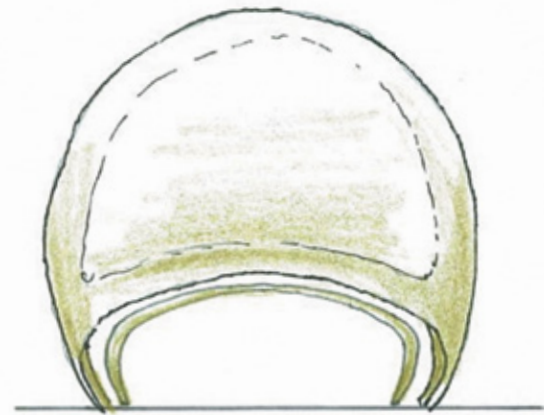

DESIGNED EXCLUSIVELY FOR JANUS et Cie by Gabellini Sheppard and Associates, the Fibonacci Collection is a synthesis of design, craft and technology. Fibonacci, winner of the prestigious *Hospitality Design* product design competition award, captures the natural drape of material over structure through a disciplined voluptuousness of form and sparingly elegant line. Superior design, materials and craftsmanship place Fibonacci into the exclusive JANUS et Cie Masterpiece Series.

AND AVA DINING CHAIR

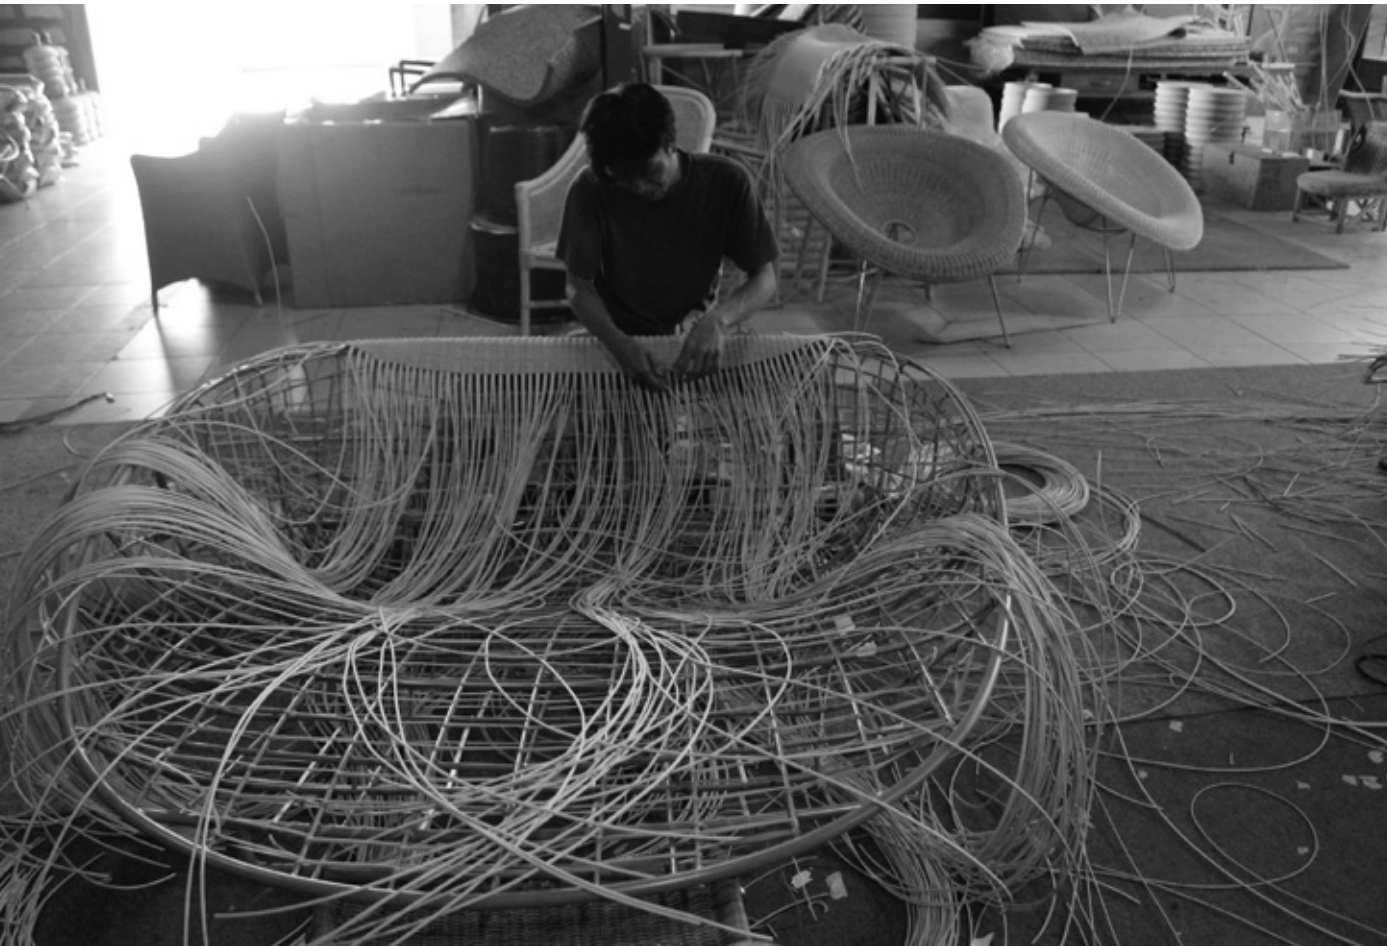

THE FIBONACCI COLLECTION typifies a unique approach to natural forms that evoke fluid movement while paying homage to the Fibonacci series — the progressional geometric structure found in nature. The collection includes six seating options: Anda, Ava and Alba Lounge Chairs, Ava Dining Side Chair, Avanda Recamier, and the Vantana Double Chaise. Two table options include the Fondo Dining Table and Fonda Side Table of JANUSstone.

THIS PAGE: ANDA LOUNGE CHAIR
AND ALBA LOUNGE CHAIR

EACH SEATING ELEMENT of the Fibonacci collection is handwoven by skilled artisans and exemplifies superior craftsmanship. Proprietary JANUSfiber woven over a durable powder-coated galvanized steel frame offers unparalleled resistance to weather conditions in exterior applications.

VANTANA DOUBLE CHAISE
WEAVING DETAIL

Asymmetrical and elegant, the handwoven Avanda Recamier features a high curved back with a long, gentle slope. Avanda's generous seat invites users to lounge and linger.

AVANDA

AVANDA RECAMIER

AVANDA

SHOWN WITH AVA LOUNGE CHAIR

Woven by hand as a single piece, Alba's circular form is supported by an exposed structure that branches to three legs, creating a striking silhouette.

ALBA

ALBA LOUNGE CHAIR

Award winner at Hospitality Design Expo, Ava features a slim, wafer-shaped seat and back that cradles the sitter in comfort. The Ava Dining Chair is woven as a single piece and displays a sleek curved form.

AVA

AVA DINING CHAIR

AVA

The Ava Lounge Chair's graceful lines and sculpted shape capture simple elegance, while providing ample room to lounge in comfort.

AVA

AVA LOUNGE CHAIR

AVA

Anda's exposed articulate metalwork supports the body in a gentle recline. The dramatic wingtips formed by the drape of material span 39 inches and unfurl to the floor.

ANDA

ANDA LOUNGE CHAIR
AND OTTOMAN

Handwoven in our proprietary JANUSfiber, the Vantana Double Chaise embodies natural winding curves that follow the line of the lounging human form.

VANTANA
