

**JANUS et Cie: The Masters Aluminum Series**

The Masters Aluminum Series: The moment Orlando Diaz-Azcuy accepted Janice Feldman’s invitation to design a collection of lounge and dining furnishings, the glorious collaboration of two design visionaries began. Their mutual admiration and shared meticulous attention to detail has resulted in The Masters Aluminum Series, each collection among the finest of metal furnishings produced today.

In Feldman’s own words, “Orlando and I have respected and admired each other’s work for a very long time. When we finally met, we vowed to create something that had never before been done...I consider Orlando to be one of the greatest design masters of all time.”

Realized with a perfectionist's eye and attention to detail, each extraordinary piece is impeccably crafted in solid aluminum using highly specialized extrusions and die castings. A thoughtful marriage of sculptural forms with exquisite metalwork reveals a unique surface that defies traditional methodologies and elegantly conveys the historical reference of the designs. Substantial frames, world-class engineering and precision welds ensure that each piece is as meticulously detailed beneath the finish as it appears on the surface.

The Masters Aluminum Series is offered in an expansive palette of twenty rich satin finishes, as well as a broad range of custom options, underscored by

marble inserts and distinctive JANUS et Cie signature cushions. The result is a glamorous ensemble reflecting relaxed, luxurious refinement.

This sophisticated selection of complete dining and lounge collections adds dramatic impact to an intimate traditional setting as gracefully as it complements the clean lines and open spaces of a contemporary environment.

Lauded worldwide by leading design publications, the masterpieces presented on the following pages include some of the most highly recognized collections available, along with a new series of timeless classics.

Time and timelessness is very important to me. I cannot design for a single tense. Good design should understand past, present, and future.

Orlando Diaz-Azcuy

Orlando Diaz-Azcuy’s prolific career spans 50 years. With degrees in architecture, landscape architecture and planning, he worked with luminaries like Lawrence Halprin and Arthur Gensler before opening his own studio in 1987. Today he is best-known for interior architecture and furniture design.

The hallmarks of Diaz-Azcuy’s work—intelligent pragmatism, quiet elegance—have remained consistent. His now-iconic work for Steelcase, McGuire, and HBF reinvigorated those storied brands. He has received some of the design world’s highest honors, rarely bestowed upon a single person: *Interiors* magazine Designer of the Year, *Interior Design* magazine Hall of Fame, California Icon of Design, and two honorary doctorates.

Design is both a blessing and  
a curse...because to do  
great work, we must be obsessed.  
It is our calling.

Janice Feldman

Janice Feldman has been a leader in the design industry since establishing her company 35 years ago. A trained artist and interior designer schooled in graphics arts and industrial design, Feldman is renowned as a business maverick, a champion of great design, and a visionary in the field of material innovation. Her devotion to the environment has driven her to pioneer the use of sustainable materials which extend the product life cycle. This dedication has been recognized throughout the industry.

Feldman continues to focus on the growth and expansion of her company. JANUS et Cie has achieved worldwide recognition as the definitive source for site, garden and casual furnishings. Feldman's company and collections have been honored with more than 60 design awards, her internationally acclaimed Suki Dining Chair currently residing in Singapore's prestigious Red Dot Design Museum.

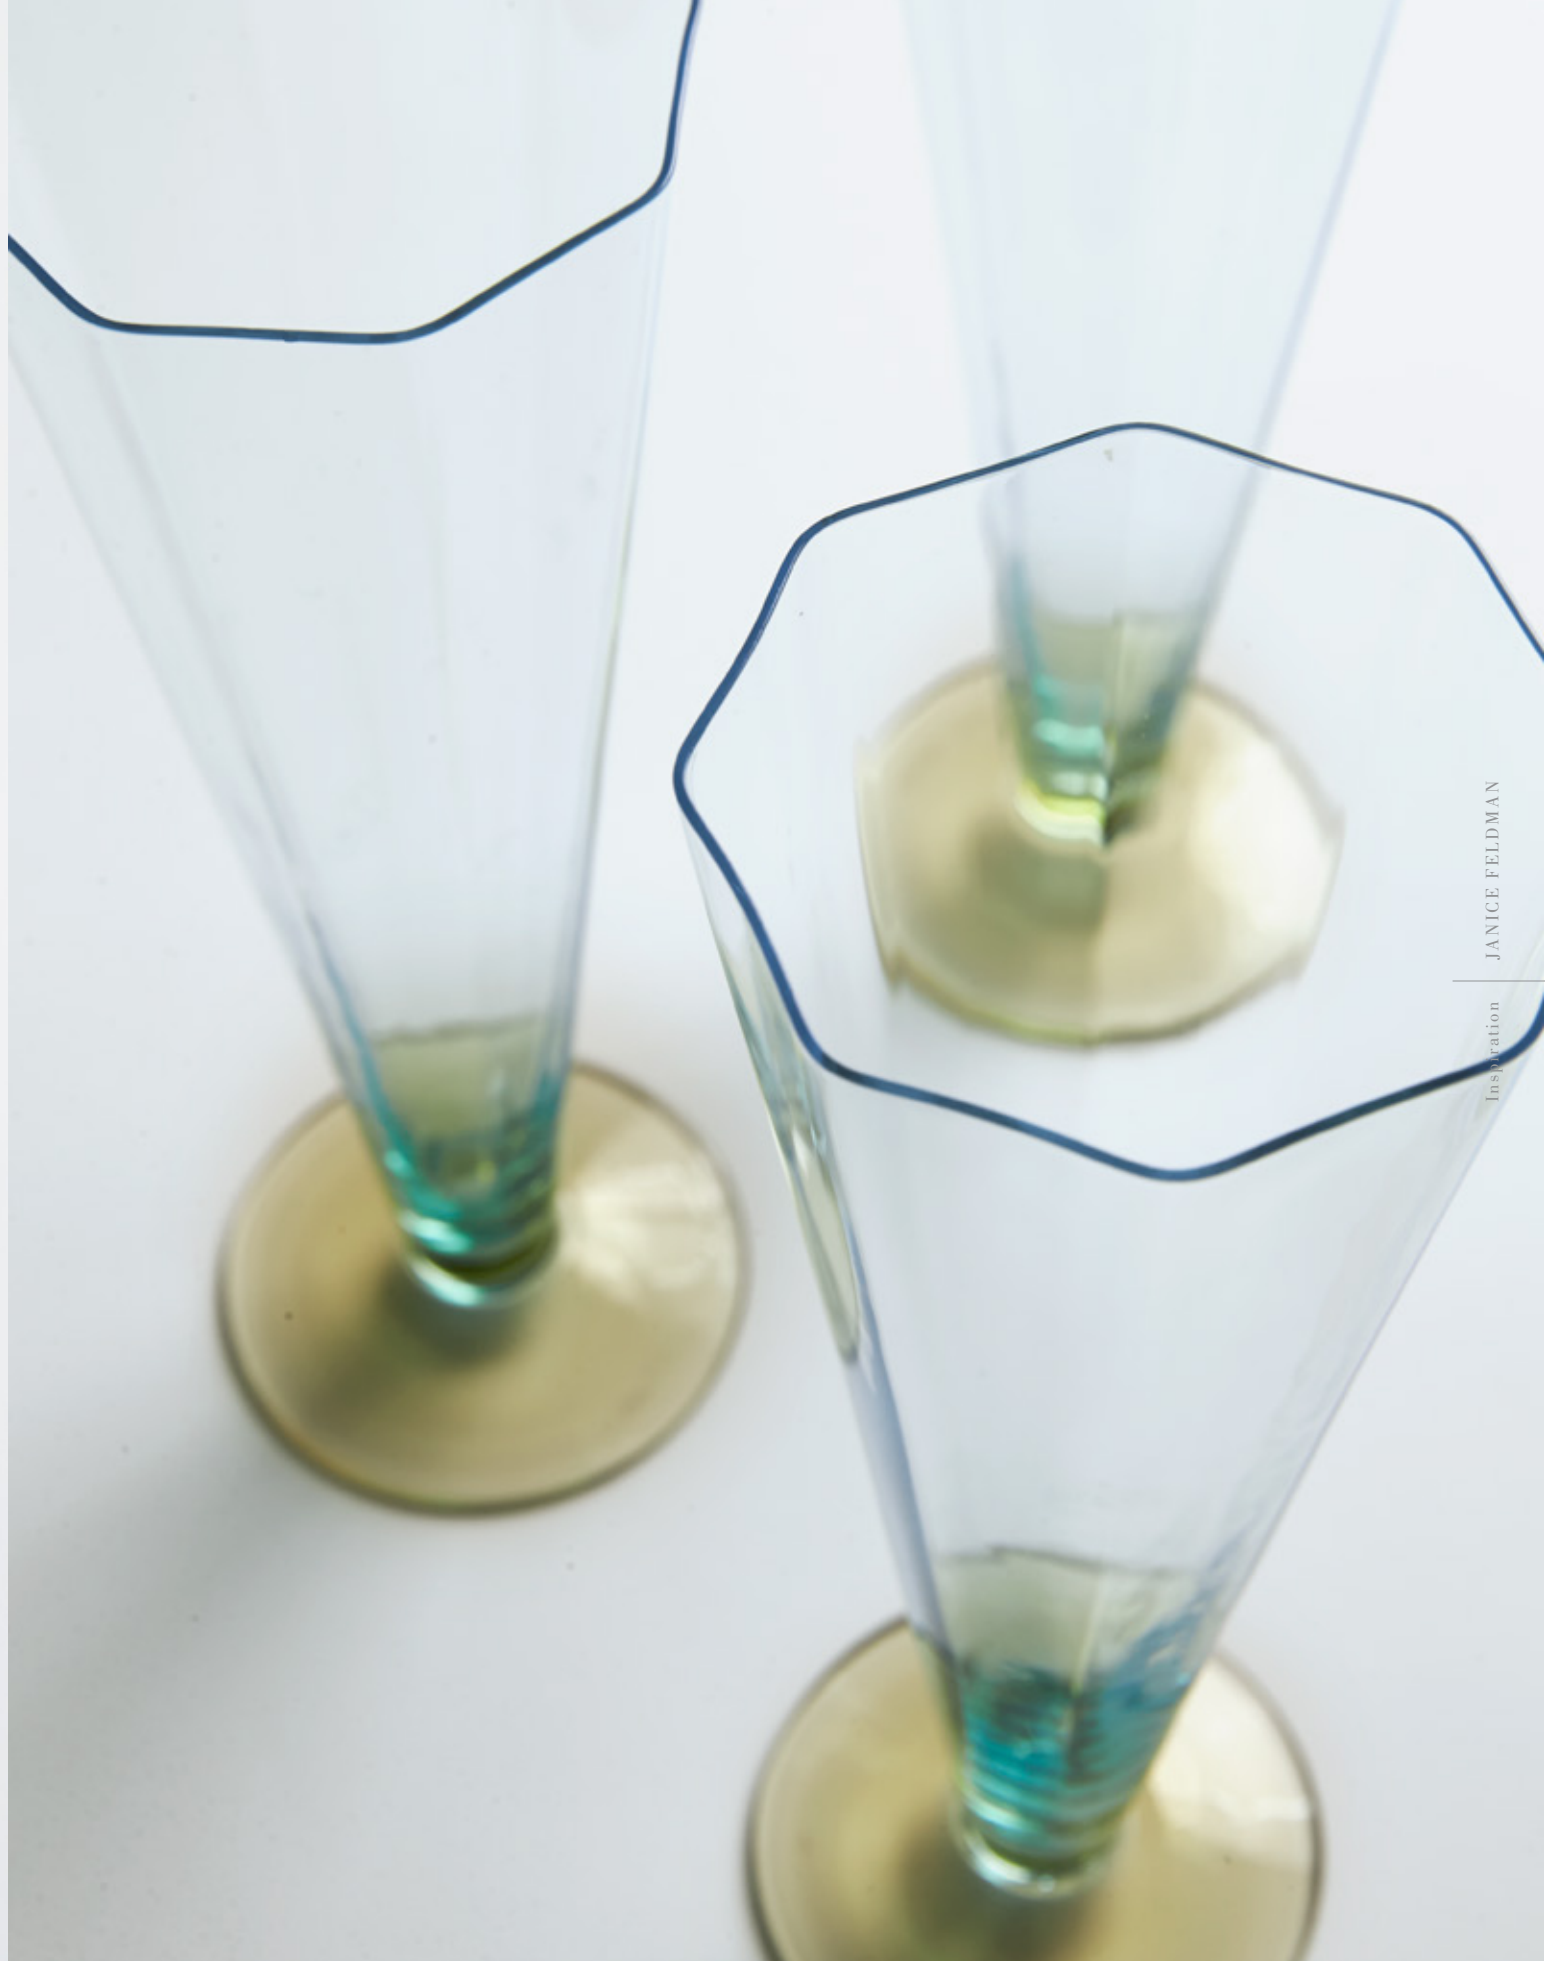

[Inspiration]

The revolutionary style and design ideals of Josef “Quadrat” Hoffman have inspired these masters throughout their lives.

While the theories and works of an esteemed idol often serve as the initial catalyst, a designer’s cherished personal possessions can evoke the meaningful memories that drive creation. From a beloved mother’s antique spoons to a prized first-edition silver chalice, these priceless objects inspire the genesis of a new heirloom to be held dear by future generations.
