DREAM WEAVES

With wicker furnishings, bringing the outdoors in is a breeze, writes *Kate Nixon*.

Colombo dining chairs, \$425 each, Coco Republic.

The rise and rise of natural fibres in our homes speaks to a shifting desire for space and simplicity, an earthy, grounded aesthetic that honours the colours, curves and textures found in nature. Wicker – the name for the weaving of materials such as cane (rattan), bamboo, reed, willow, and, more recently, synthetic fibres – dates back to the Sumerian civilisation of 4000BC. Inherently robust, it's perfect for coastal climates, with enduring appeal across a multitude of design styles. Whether accessory, hero or occasional piece, there's a form to fit your summer refresh. **H&G Send decor questions (with name and address) to H&G Advice, PO Box 4088, Sydney, NSW 1028 or email H&G@bauer-media.com.au.**

Fresh ideas & easy updates

- ✦ Introduce texture through readily updated accessories such as trays, table lamps, baskets and boxes.
- ✦ Embrace curves – think round side tables and pedestal dining tables, ottomans, and armchairs.
- ✦ Balance the organic texture of wicker with smooth concrete, natural stone and plush upholstery.
- ✦ Look for modern mixed-material detailing such as brass feet and powercoated-steel framing.

Team woven pieces with contrasting textures such as marble or velvet for an elegant finish.
