# 8 stylish ways to enjoy the pool

## 1. Cover up

Choose an outdoor umbrella with a UV-protected canopy (this one filters 98 percent of the sun's harmful rays) and durable teak and marine-quality steel construction and you'll be made in the shade.

## 2. Wheel it in

Save yourself the trouble (and back pain) of lugging boxes of pool toys and towels outdoors with a basket-framed (and -topped) wagon you can grab by the handle and roll around—just like the old Radio Flyer you had as a kid!

**Garden Wagon**, price available upon request; janusetcie.com for retailers

## 3. Rock on

Listen to your favorite jams with in-ground camouflage landscape speakers that hold up to both rain and saltwater spray—and blend in a whole lot better than bulky sound equipment.

**Free Space 51 Environmental Speakers**, \$450; bose.com

## 4. Float away

When the clear blue pool beckons, give in! A floating lounge is the perfect way to enjoy the water without pruney fingers. This one boasts an extra-large back rest, pillow, and built-in drink and MP3 holders.

## 5. Give yourself a little cushion

Make plopping down on a poolside lounge even more fun by dressing it with fashion-forward all-weather pillows. We love the idea of mixing different sizes and patterns, but maintaining a uniform color scheme to tie it all together. And if you tend to hang by the pool past sunset, keep a cozy outdoor-friendly throw nearby. This plush checkered version is crafted in rain-resistant acrylic, but mimics the textures of chenille and bouclé.
