# LIGHT

“THERE IS A CRACK IN EVERYTHING. THAT’S HOW THE LIGHT GETS IN.”

— Leonard Cohen

The Kyoto Alu Lounge Chair from **Janus et Cie**, is made from aluminum and the brand’s proprietary Januscoat and Janusfiber. It is available in Limestone and Lava, and is suitable for indoors and out.

The Artisan Series, from **The Shade Store**, comes in a large variety of textural materials and colorways. The collection creates a natural look and diffused light.

In the Kips Bay Decorator Showhouse in Palm Beach, designer Mark Williams transformed the kitchen using **Monogram** appliances to complete the look. Column refrigeration, dishwasher and refrigerator drawers were hidden behind rift cut white oak panels and an induction cooktop is flush-mounted into the countertop.
