The LiftMeUp Portable Electric Recliner

The LiftMeUp recliner is a motorized device that easily and instantly transforms any bed into an adjustable bed, enabling its users to get in and out of bed more easily, sleep at an incline and recline comfortably, all at the touch of a button! It is a unique and user friendly solution that addresses the issues of independence and mobility but also those of caregiver safety, by avoiding back injuries, and dignity, by keeping the users in their own bed, next to their partner.
