1 Ideal for an outdoor shower or any other humid environment, the Kiss the Sky-Wet system by **WALL & DECO** is a waterproof wallcovering that uses solvent-free inks to ensure long-lasting results. [wallanddeco.com](http://wallanddeco.com)

2 With their metallic fringe detailing, the Island outdoor pillows by **EASTERN ACCENTS** are not just aesthetically pleasing, but they can handle whatever the Florida sun, sand, and surf throw at them. [easternaccents.com](http://easternaccents.com)

3 **JANUS ET CIE** brings what's typically been an indoor diversion to the pool deck with its silver foosball table. The game features a steel frame (treated to handle the elements) with a playing field emblazoned with the brand's topiary logo. [janusetcie.com](http://janusetcie.com)

4 As minimalist as it can be, the Knott freestanding outdoor shower by **MAGNUS HOME** is unobtrusive enough to place right by the edge of the pool. [magnushomeproducts.com](http://magnushomeproducts.com)

5 A concept by designer Stephen Burks for **DEDON**, the anthropomorphic lantern from The Others collection is a hand-woven piece that can be displayed individually, or arranged in totem-like stacks for more dramatic effect. [dedon.de](http://dedon.de)

On the pool deck, a pert aqua apple sculpture, sourced from Janus et Cie, echoes the color of the water it sits beside. Closest to the pool, two guest rooms flank a large loggia with a modern fireplace.

The seating in the loggia is from David Sutherland's Eclipse Collection, chosen for its Corbusier lines and ability to withstand Florida's harsh sun and rain. The dining table is a custom piece from David Sutherland and features an Opustone top. The ceiling pendant will be released in Paladino's collection with Visual Comfort this summer.
