THE GARDEN

Chaise longue: The Lucy chaise from **JANUS et Cie** combines retro '70s glamour with traditional garden design for an enduring look. Made of resin wicker woven over an aluminum frame, it's built to stand up to the elements (\$1,410). **On the chaise:** JANUS et Cie's oversize black-and-white gingham print—called Dixie—is a fun, modern interpretation for indoor/outdoor use (\$146 per yard). **On the pillow:** Add contrast with the smaller Petite Dixie pattern (\$146 per yard; janusetcie.com).
