Jack from **Odaka** comes in six colors and is a traditional Damask pattern adapted in an ikat effect. Its bright color variations and design bring a modern look to an antique decorative pattern.
ODAKA.CO

8

An updated take on classic faux bois furniture, the Forest armchair from **JANUS et Cie** is able to withstand the elements. The indoor-outdoor chair combines powder-coated die-cast aluminum with tubular aluminum legs.

boasts a retractable awning and firepit for nearly year-round use. Somewhat raw like the interiors but with a green wall to create an enclosure feeling, the interior courtyard in the middle of San Francisco “is super beneficial,” Sheehan says. “We can get an additional 75 people out there. Everything was designed for maximum flexibility.” hd

2. The restaurant’s three bays are outfitted with varied custom seating, flexible to set up for meetings or events.

3. The dining area transitions from day to night with a two-track lighting system that creates an unhealthy glow after dark.

4. The bar area is made to feel mechanical, with exposed piping and a fractured-looking marble bar front.

5. The outdoor patio is anchored by a green wall and a rusted water feature left over from the former space.
