The maintenance-free, Belgian-made **Dome** by **Heatsail** is a combination outdoor lamp and heater and is available as a floor lamp or pendant. Made from stainless steel with an aluminum hood, it can be left outside all year. The gold coating inside the shade reflects the invisible far-infrared rays and spreads a warm, pleasant light.

Inspired by honeycombs and designed by Fabrice Berrux for **EGO Paris**, the **Hive Love** two-seater's geometric form is modular and can be arranged in many configurations. Framed by powdercoated aluminum, the piece can also come with an optional backseat made from a **Batyline** canvas by **Serge Ferrari**.

The **Duo Cabana** from **JANUS et Cie** fits two perfectly within its durable aluminum frame finished with adjustable backrests and structured reticulated foam cushions. The mesh canopy—available in vapor, misty gray, and eclipse—can be pulled up or down, and the frame is offered in graphite or talc.
