TRADESHOW FINDS

Because we couldn't come together this year at HD Expo, BDNY, and ICFF, we've gathered a few goodies that would have been showcased on the show floor. Visit hdexpo.com, bdny.com, and icff.com for more information on next year's shows.

1 **JANUS et Cie** has expanded its Alta series with 26 new pieces of outdoor furniture ranging from ottomans and side tables to lounge chairs and benches. In addition to a gently raised seat, the new dining and lounge chairs feature a slightly shorter seat depth and increased overall height. JANUSETCIE.COM

2 In **Kenneth Cobonpue's** biometric Lily mobile chandelier, lily pad-inspired pieces in a fiber-reinforced polymer act as counterpoints to individual exposed light sources, from which each element is separated by a freely rotating, vertically suspended brass bar. KENNETHCOBONPUE.COM

3 Celebrating the spirit of personal style and comfortable living, **S. Harris' Q2 Performance Fabrics** are inspired by the art, fashion, and travel trends of the moment. The highly resilient, stain-resistant collection retains its easy-to-clean characteristics throughout its life. FABRICUT.COM/SHARRIS

4 **Room & Board's** Avery bed features soft fabric embellishments with tufting that puts a modern twist on its classic style. Adding texture and color to the room, it comes in five mattress sizes and does not require a box spring. ROOMANDBOARD.COM

5 **Astek's** Botanica Magna challenges the viewer to perceive the world from the ground up with large-scale murals that create immersive environments of towering cacti, flowers, mushrooms, and more fantastical flora. The collection is digitally printed on Type II vinyl substrates. ASTEK.COM
