CHALET CLICHÉS AT A
LAKE TAHOE GETAWAY

For a California vacation home near Lake Tahoe, designer Matt O'Dorisio created an elevated outdoor patio paved in Connecticut bluestone. The seating area combines contemporary teak with more traditional wicker. "It's like an extension of the living room into the forest," he says. Sofas, arm-chairs, and coffee table by Janus et Cie.

A Relais sofa by Janus et Cie faces the outdoor fireplace, which helps warm the covered dining patio on cool days and evenings. A teak dining table by Barlow Tyrie is surrounded by Janus et Cie armchairs. The weathered-zinc pendants are from Restoration Hardware. FOR MORE DETAILS, SEE RESOURCES
