

INTERIOR DESIGN[®]

The background of the entire page is an abstract composition of overlapping, organic, blob-like shapes. The colors are vibrant and saturated, including deep blues, forest greens, fiery oranges, and rich reds. The shapes overlap in a way that creates a sense of depth and movement, with some shapes appearing to be in front of others.

Despite its 19th-century origins as a parlor game for upper-crust Brits, table tennis is today a rec-room staple. The simply named **Ping Pong** table—regulation size at 5 by 9 feet and 30 inches high—ups the style quotient considerably with its stainless-steel base and high-density HPL top in classic green. Two paddles and four balls come with the table, so set it up and let the games begin...outdoors or in. janusetcie.com, circle 856 ➤
