Geberit Concealed Systems

■ GEBERIT

Classic Charisma

The Geberit Concealed Tank and Carrier system provides design flexibility while creating elevated elegance and function in bathroom designs. Designer Liz Murray recommended the Geberit system for a high-end estate renovation in Oregon to bring her classic traditional design to fruition. While an estate home is luxurious, achieving luxury can be as simple as pushing the design of the everyday toilet. Get inspired and learn more about Geberit at → mygeberit.com. Circle 42
