INTERIOR  
DESIGN

out of the mist

Most of the furniture is newly acquired—a mix of recent and vintage designs, including a chesterfield-style ottoman by Donna Wilson, lounge chairs by Vladimir Kagan, and numerous custom pieces by Hollis. “Danielle wanted to move in with only her toothbrush,” the designer says with a laugh.

Well, a toothbrush and several significant works of art, which the Whites have been collecting for years. Pieces by Richard Serra, Damien Hirst, and Ed Ruscha are among their treasured holdings. And, Danielle hints, more art may arrive. Hale made sure his clients had plenty of blank wall space in the new house. Some of it may not be empty for long. 🍷
