INTERIOR  
DESIGN

*curve-a-licious*

about every detail" — *Laura Bohn*

**Left:** A ceiling fixture of stainless-steel mesh by Thierry Vidé hangs over a custom cement tub and large-format porcelain floor tiles in the master bathroom.

**Top:** A mural of the Grand Canyon teams with Ramos & Bassols's ceiling fixtures in the basement gym. **Bottom:** A wall of wood-look porcelain tile lines the indoor lap pool.

And what else would an avid naturalist and accomplished cook wish for her dream home? Her own source of organic farm-to-table produce, of course. So there's a vegetable garden, greenhouse, and even a chicken coop, the latter surrounded by an aluminum framed geodesic dome to keep out predators. The property also has a spa in a secret garden, nature trails, and an outdoor pool with a pool house, a pair of fire pits, and—it almost goes without saying—an alfresco tango floor. 🍷
