Mosaic tiles in shades of blue rim the backyard swimming pool designed and installed by Distinctive Pools, tying in with Emissary stools in the outdoor seating area. Janus et Cie outdoor furnishings complement the family room decor just inside. A concrete console from Currey & Company, at left, holds a pair of Italian urns from the homeowners' collection.

Builder Karl Hansen worked with project manager Darryl St. Andrie to build this residence, equipped with an outdoor dining area. A Janus et Cie table pairs with upholstered chairs from Patio 1, while teak benches from Westminster Teak in Live Oak, Florida, supply additional seating. The copper lantern is from Janet Wiebe Antiques.
