Net Effect

Conversations might turn deliciously devious in **Janus et Cie's** new lounge chair for the Dragnet Collection. This piece is fashioned from a powder-coated steel frame, with the showstopping red seat and back handwoven from hardy Sunbrella acrylic fabric. For those who like to spin their webs inside, the Dragnet is available in an indoor version as well. \$5,753, 3930 NE Second Ave., Miami, janusetcie.com —DL

New Angle

Part sculpture, part function, the Lampara Piramide gives outdoor lighting a whole new artful category. Designed by José A. Gandía-Blasco, current creative director of his family business—the Spanish design company **Gandia Blasco**—the lightweight, portable lamps are made of weather-resistant polyethylene with a florescent bulb, so they withstand hot and cold temperatures. An extra-long cord allows the Piramide to be placed easily in your outdoor area; we like them lining a path to your entertaining or beach zone. The tall (5'11"), triangular shapes are best used as multiples on a large lot, but they add a cool glow of dimension to any modern outdoor space. \$1,250, *Gandia Blasco*, 3650 N. Miami Ave., Miami, gandiablasco.com —AM

Trend

What's your take on the latest in pool surfacing?

"Lightstreams is one company that has a fantastic glass tile product. We have done several projects with glass tile interiors and they are fabulous! We also did a project for a client in Sarasota where the pool was on the third floor, with clear acrylic panels on the bottom. People underneath can look up into the pool and vice versa. These clear panels can be used for pool windows and clear walls too. We've done quite a few projects that use those."

Brian Van Bower, principal, Aquatics Consultants Inc., aquaticconsultants.com

Hang Time

After the launch of the high-style Swingrest lounger, we were waiting in suspense for what French-Romanian architect and **Dedon** design collaborator Daniel Pouzet would do next. Enter the SwingMe single-seat and the SwingUs double-seat evolutions of the suspended seaters. Both are also available in standing versions for those who wish for something a bit more grounded. Other customizations include an optional canopy (for the SwingMe) and a choice of suspension methods, allowing users to either rotate around in circles or swing back and forth. Just add your own spin. \$2,150-\$2,595, *Clima Outdoor*, 3650 N. Miami Ave., Miami, climaoutdoor.net —PW

Toque Tech

Standing over a hot grill on a summer night is so 2014. With the new **Lynx Concept Grill** (aka SmartGrill), the outdoor chef receives a text message when the steak needs to be flipped or is ready to serve. The SmartGrill also comes with a database of more than 200 recipes. \$5,999-\$9,499, *Luxapatio*, 3305 NW 79th Ave., Miami, luxapatio.com; *House of Appliances*, 360 Miracle Mile, Coral Gables, houseofappliancesinc.com —RR
