JANUS ET CIE

Wing

Like many of Janice Feldman's designs, Wing takes inspiration from nature. The curve of a bird's wing is translated into the arc of hand-woven curves of JANUSfiber, creating a balance of craft and comfort. The collection consists of a lounge chair, two-seat sofa, three-seat sofa, round cocktail table, round side table and a new dining armchair. The oversized lounge furniture is available in multiple finishes for table tops, fabrics and colours.
