The country's leading designers usher a British institution into a new era

FLEXFORM

Taylor

Part of Flexform's Carlo Colombo-designed 2018 collection – comprising armchair, sofa, table and storage models – Taylor is a cabinet range comprising storage for living areas with light aluminium structures and large sliding doors covered in cowhide. Available with marble or wood tops, the collection brings together a TV case and a hinge door cabinet. www.flexform.it

FROST

Nova2

Blending influences drawn from traditional Scandinavian minimalism with more classically-inspired leanings, Frost's Nova2 is a complete selection of accessories for kitchen, bathroom and wardrobe environments. The Nova2 Brush – combining a roll and brush holder in one functional product – avoids the need for drilling into walls during installation, and provides a statement bathroom decoration.

BAAL

Troop

Inspired by the curving, irregular shapes of futuristic design aesthetics drawn from science fiction, as well as the infamous white, rounded uniforms of Star Wars' Storm Troopers, Baal's Troop is a series of OS&E items with slick, clean and industrial profiles. Double colour combinations and offset breaks within the bodies offer a distinctive presence within guestrooms and public spaces alike.

JANUS ET CIE

Gina

Designed by Piero Lissoni, Janus et Cie's Gina collection combines tactile materials and plush seating with modern silhouettes and practical durability. Created for outdoor use, but suitable for interiors too, the modular range is constructed with a solid aluminium frame and woven rope seat. Rooted in Lissoni's minimalist style, each piece offers a chic, contemporary vibe.
