Family-Style Seating

Forget saying, "scooch over." Large-scale outdoor seating affords plenty of space for group gatherings. **Piero Lissoni for JANUS et Cie** The "Gina" modular sofa—composed of two pieces—features a curvaceous weatherproof woven seat (janusetcie.com). **William Mangum for Klaussner** An adjustable arm and back panels allow the "Urban Retreat" daybed lounge to move with you (carolinapreserves.klaussner.com). **Richard Frinier for Brown Jordan** Featuring Sunbrella strap seating, the "Stretch" daybed combines comfort and style (brownjordan.com). **Brian Mehler for Tropitone** Woven frame panels make the "Mixx" modular sectional stand out (tropitone.com).

Finally—it's time to entertain alfresco. Is your backyard up to par? Get set to enjoy summer in style!
